

Thank you for your purchase.

Welcome to the Avenue Lighting Family. Please follow these instructions carefully as they contain important information about the safety, use and disposal of this product. Read and understand all instructions before proceeding with assembly and installation of this fixture.

- This fixture MUST be installed by a licensed electrician.
- All parts must be used as indicated in this install sheet.
- DO NOT substitute any parts, leave parts out, or use parts that are worn out or broken.
- This fixture is intended for installation in accordance with the National Electrical Code (NEC) and all local code specifications.
- Use ONLY the supplied LED driver to power this fixture.
- Do NOT operate fixture if any lights are not operating or are operating improperly in order to prevent further damage.

Preparation:

Carefully remove the fixture from the carton and check that all parts are included as shown in the illustration. If any parts are missing or damaged, DO NOT attempt to assemble the product.

Tools Required

(not included):

- ~ Phillips screwdriver
- ~ Flathead screwdriver
- ~ Wire Strippers
- ~ Electrical Tape
- ~ Ladder
- ~ Safety Glasses

Assembly Instructions:

1. Turn off the power before installation (see Figure A)
2. Open the box and take out the luminaire and accessories, According to the diagram, screw the middle rod onto the lamp body and tightly (Steps 1 - 5)
3. Open the parrot buckle, hook one end onto the lifting ring of the fixture and the other end onto the hanging chain, then tighten the nut of the parrot buckle (Steps 6 - 7)
4. Remove the mounting bracket from the luminaire, place it over the junction box, drill holes for plastic wall anchors according to the bracket hole positions, then insert the plastic wall anchors into the holes (Steps 8)
5. Thread the wires and load-bearing steel wire through the hanging chain, cow nose hanging ring, ceiling plate, and mounting bracket in sequence. Then pass the load-bearing steel wire over the load-bearing beam behind the junction box in the ceiling, wrap it around the beam, and fasten it securely (Steps 9 - 11)
6. Place the mounting bracket over the junction box, secure it with screws, and drive wood screws through the bracket holes into the plastic wall anchors, tightening firmly (Steps 12 - 14)
7. Connect the fixture's power wires to the main power wires in the junction box (white to white, black to black). Wrap the bare copper wire around the green screw inside the junction box, tighten the green screw into the hole, and then connect the fixture's bare copper ground wire to the bare copper ground wire in the junction box (Steps 15)
8. Cover the junction box with the ceiling canopy, aligning the canopy holes with the threaded holes on the mounting plate. Then screw the mounting plate screws into the mounting plate holes to secure the canopy tightly (Steps 16)
9. Install the light source onto the fixture (Steps 17)
10. Following the luminaire diagram, screw the glass pieces onto the luminaire one by one (Steps 18)
11. Turn on the power (see Figure B)

Thank you for your purchase.
