

### Thank you for your purchase.

Welcome to the Avenue Lighting Family. Please follow these instructions carefully as they contain important information about the safety, use and disposal of this product. Read and understand all instructions before proceeding with assembly and installation of this fixture.

- This fixture **MUST** be installed by a licensed electrician.
- All** parts must be used as indicated in this install sheet.
- DO NOT** substitute any parts, leave parts out, or use parts that are worn out or broken.
- This fixture is intended for installation in accordance with the National Electrical Code (NEC) and all local code specifications.
- Use **ONLY** the supplied LED driver to power this fixture.
- Do NOT** operate fixture if any lights are not operating or are operating improperly in order to prevent further damage.

### Preparation:

Carefully remove the fixture from the carton and check that all parts are included as shown in the illustration. If any parts are missing or damaged, **DO NOT** attempt to assemble the product.

### Tools Required

#### (not included):

- ~ Phillips screwdriver
- ~ Flathead screwdriver
- ~ Wire Strippers
- ~ Electrical Tape
- ~ Ladder
- ~ Safety Glasses

### Assembly Instructions:

1. Turn off the power before installation (see Figure A)
2. Open the box, take out the luminaire and accessories, then remove the mounting bracket from the luminaire. Place the mounting bracket over the junction box, Drill holes for plastic wall anchors according to the hole positions on the bracket, then insert the plastic wall anchors into the holes. Next, align the junction box screws with the screw holes on the junction box, screw them in and tighten. Drive wood screws through the bracket holes into the plastic wall anchors (Steps 1 - 4)
3. Connect the fixture's power wires to the main power wires in the junction box (white to white, black to black). Wrap the bare copper wire around the green screw inside the junction box, tighten the green screw into the hole, and then connect the fixture's bare copper ground wire to the bare copper ground wire in the junction box (Steps 5)
4. Use the ceiling plate screws to attach the ceiling plate to the mounting bracket and tighten securely (Steps 6)
5. According to the fixture diagram, hang the glass pieces one by one onto the acrylic clips of the fixture (Steps 7)
6. Turn on the power (see Figure B)
